

If global warming is happening, what are some things we can do to help?

What is renewable energy?

What are some types of renewable energy?

What is renewable energy?

- energy that we won't run out of
- can "renew"

What are some types of renewable energy?

- solar
- wind
- hydropower energy (water)
- geothermal energy (heat)
- biomass energy (usually from wood)

What evidence can you think of that demonstrates global warming and climate change?

What reasons can you think of to disagree with the above?
